Early Human Development 53 (1999) 275-277

**Early Human  
Development**

## Subject index

Volume 53 (1999)

**Alveoli;** Bronchopulmonary dysplasia; Respiratory distress syndrome; Cytokines; Surfactant **53, 81**

**Anti-insulin antibodies in cord blood;** Maternal anti-insulin antibodies; Birthweight; GDM; IDDM **53, 145**

**Arterial baroreflex;** Spectral analysis; Autonomic nervous system; Neonates **53, 37**

**Autonomic control;** Baboon; Fetus; Heart rate and heart rate variability; Maturation; Poincaré plot; Pregnancy **53, 219**

**Autonomic nervous system;** Spectral analysis; Arterial baroreflex; Neonates **53, 37**

**Baboon;** Autonomic control; Fetus; Heart rate and heart rate variability; Maturation; Poincaré plot; Pregnancy **53, 219**

**Bayley Scales of Infant Development II;** Caffeine; Coffee; Guatemala; Iron status; Sleep **53, 251**

**Birthweight;** Maternal anti-insulin antibodies; Anti-insulin antibodies in cord blood; GDM; IDDM **53, 145**

**Blood vessel development;** Brain development; Human; Perinatal brain injury **53, 65**

**Bone turnover;** Collagen crosslinks; Newborn; Osteopenia of prematurity; Renal function **53, 185**

**Brain development;** Human; Blood vessel development; Perinatal brain injury **53, 65**

**Breast-fed;** Persistent crying; Colic; Formula-fed **53, 9**

**Bronchopulmonary dysplasia;** Respiratory distress syndrome; Cytokines; Surfactant; Alveoli **53, 81**

**Caffeine;** Bayley Scales of Infant Development II; Coffee; Guatemala; Iron status; Sleep **53, 251**

**Chaos;** Power spectrum; Uncomplicated intra-uterine growth restricted fetus **53, 121**

**Circulation;** Ductus venosus; Ductus arteriosus; Echocardiography; Prematurity **53, 163**

**Coffee;** Bayley Scales of Infant Development II; Caffeine; Guatemala; Iron status; Sleep **53, 251**

**Colic;** Persistent crying; Breast-fed; Formula-fed **53, 9**

**Collagen crosslinks;** Bone turnover; Newborn; Osteopenia of prematurity; Renal function **53, 185**

**Cytokines;** Bronchopulmonary dysplasia; Respiratory distress syndrome; Surfactant; Alveoli **53, 81**

**Development;** Neutrophil; Granulocyte colony-stimulating factor; Fetus; PCR **53, 129**

**Diabetes;** Exocrine function; Fetal pancreas **53, 179**

**Ductus arteriosus;** Ductus venosus; Echocardiography; Circulation; Prematurity **53, 163**

- Ductus venosus;** Ductus arteriosus; Echocardiography; Circulation; Prematurity 53, 163
- Echocardiography;** Ductus venosus; Ductus arteriosus; Circulation; Prematurity 53, 163
- Exocrine function;** Diabetes; Fetal pancreas 53, 179
- Extreme immaturity;** Survival; Extremely low birthweight; Neurodevelopment 53, 193
- Extremely low birthweight;** Survival; Extreme immaturity; Neurodevelopment 53, 193
- Fast-Fourier-transformation (FFT);** Sudden infant death syndrome (SIDS); Heart rate variability (HRV); Slow respiratory oscillation; Spectral analysis 53, 53
- Fetal circulation;** Left ventricular volume; Left ventricular mass; Mitral valve 53, 1
- Fetal growth;** Twins; Mortality 53, 73
- Fetal pancreas;** Diabetes; Exocrine function 53, 179
- Fetal sheep;** Hypothermia, induced; Hypoxic-ischaemic encephalopathy 53, 19
- Fetus;** Autonomic control; Baboon; Heart rate and heart rate variability; Maturation; Poincaré plot; Pregnancy 53, 219
- Fetus;** Neutrophil; Granulocyte colony-stimulating factor; PCR; Development 53, 129
- Fever;** Thermometers 53, 171
- Formula-fed;** Persistent crying; Colic; Breast-fed 53, 9
- GDM;** Maternal anti-insulin antibodies; Anti-insulin antibodies in cord blood; Birthweight; IDDM 53, 145
- Gestational diabetes;** PICP; ICTP 53, 155
- Granulocyte colony-stimulating factor;** Neutrophil; Fetus; PCR; Development 53, 129
- Guatemala;** Bayley Scales of Infant Development II; Caffeine; Coffee; Iron status; Sleep 53, 251
- Heart rate and heart rate variability;** Autonomic control; Baboon; Fetus; Maturation; Poincaré plot; Pregnancy 53, 219
- Heart rate variability (HRV);** Sudden infant death syndrome (SIDS); Slow respiratory oscillation; Fast-Fourier-transformation (FFT); Spectral analysis 53, 53
- Hematopoiesis;** Platelet production; Thrombopoietin receptor 53, 239
- Human;** Brain development; Blood vessel development; Perinatal brain injury 53, 65
- Hypothermia, induced;** Fetal sheep; Hypoxic-ischaemic encephalopathy 53, 19
- Hypoxic-ischaemic encephalopathy;** Hypothermia, induced; Fetal sheep 53, 19
- ICTP;** PICP; Gestational diabetes 53, 155
- IDDM;** Maternal anti-insulin antibodies; Anti-insulin antibodies in cord blood; Birthweight; GDM 53, 145
- Iron status;** Bayley Scales of Infant Development II; Caffeine; Coffee; Guatemala; Sleep 53, 251
- Left ventricular mass;** Fetal circulation; Left ventricular volume; Mitral valve 53, 1
- Left ventricular volume;** Fetal circulation; Left ventricular mass; Mitral valve 53, 1
- Maternal anti-insulin antibodies;** Anti-insulin antibodies in cord blood; Birthweight; GDM; IDDM 53, 145
- Maturation;** Autonomic control; Baboon; Fetus; Heart rate and heart rate variability; Poincaré plot; Pregnancy 53, 219
- Mitral valve;** Fetal circulation; Left ventricular volume; Left ventricular mass 53, 1
- Mortality;** Twins; Fetal growth 53, 73
- Neonates;** Spectral analysis; Arterial baroreflex; Autonomic nervous system 53, 37
- Neurodevelopment;** Survival; Extreme immaturity; Extremely low birthweight 53, 193
- Neutrophil;** Granulocyte colony-stimulating factor; Fetus; PCR; Development 53, 129

- Newborn;** Bone turnover; Collagen crosslinks; Osteopenia of prematurity; Renal function **53**, 185
- Osteopenia of prematurity;** Bone turnover; Collagen crosslinks; Newborn; Renal function **53**, 185
- Outcome;** Periventricular leukomalacia; Periventricular intraventricular hemorrhage; Pathogenesis; Prevention **53**, 99
- PCR;** Neutrophil; Granulocyte colony-stimulating factor; Fetus; Development **53**, 129
- PICP;** ICTP; Gestational diabetes **53**, 155
- Pathogenesis;** Periventricular leukomalacia; Periventricular intraventricular hemorrhage; Prevention; Outcome **53**, 99
- Perinatal brain injury;** Brain development; Human; Blood vessel development **53**, 65
- Periventricular intraventricular hemorrhage;** Periventricular leukomalacia; Pathogenesis; Prevention; Outcome **53**, 99
- Periventricular leukomalacia;** Periventricular intraventricular hemorrhage; Pathogenesis; Prevention; Outcome **53**, 99
- Persistent crying;** Colic; Breast-fed; Formula-fed **53**, 9
- Platelet production;** Hematopoiesis; Thrombopoietin receptor **53**, 239
- Poincaré plot;** Autonomic control; Baboon; Fetus; Heart rate and heart rate variability; Maturation; Pregnancy **53**, 219
- Power spectrum;** Chaos; Uncomplicated intrauterine growth restricted fetus **53**, 121
- Pregnancy;** Autonomic control; Baboon; Fetus; Heart rate and heart rate variability; Maturation; Poincaré plot **53**, 219
- Prematurity;** Ductus venosus; Ductus arteriosus; Echocardiography; Circulation **53**, 163
- Prevention;** Periventricular leukomalacia; Periventricular intraventricular hemorrhage; Pathogenesis; Outcome **53**, 99
- Renal function;** Bone turnover; Collagen crosslinks; Newborn; Osteopenia of prematurity **53**, 185
- Respiratory distress syndrome;** Bronchopulmonary dysplasia; Cytokines; Surfactant; Alveoli **53**, 81
- Sleep;** Bayley Scales of Infant Development II; Caffeine; Coffee; Guatemala; Iron status **53**, 251
- Slow respiratory oscillation;** Sudden infant death syndrome (SIDS); Heart rate variability (HRV); Fast-Fourier-transformation (FFT); Spectral analysis **53**, 53
- Spectral analysis;** Arterial baroreflex; Autonomic nervous system; Neonates **53**, 37
- Spectral analysis;** Sudden infant death syndrome (SIDS); Heart rate variability (HRV); Slow respiratory oscillation; Fast-Fourier-transformation (FFT) **53**, 53
- Sudden infant death syndrome (SIDS);** Heart rate variability (HRV); Slow respiratory oscillation; Fast-Fourier-transformation (FFT); Spectral analysis **53**, 53
- Surfactant;** Bronchopulmonary dysplasia; Respiratory distress syndrome; Cytokines; Alveoli **53**, 81
- Survival;** Extreme immaturity; Extremely low birthweight; Neurodevelopment **53**, 193
- Thermometers;** Fever **53**, 171
- Thrombopoietin receptor;** Hematopoiesis; Platelet production **53**, 239
- Twins;** Mortality; Fetal growth **53**, 73
- Uncomplicated intrauterine growth restricted fetus;** Chaos; Power spectrum **53**, 121
